Copper Merkaba Necklace

Mer-Ka-Ba has the same meaning in several languages, in Zulu it is pronounced the same as in English. The spiritual leader of the Zulu's, Credo Mutwa says people arrived on earth with a Merkaba. In Egyptian it means Mer is a field of light, Ka means spirit and Ba the Reality on Earth or the human light body it is a counterrotating field of light that teleports the spirit and the body from one dimension to another. It is also called the "Star of David" or the "Star Tetrahedron" and has the ability to alert your higher self that you become aware, and your higher self, which is you on a higher level of consciousness, it will alter your life on earth and you will rapidly begin to grow spiritually.

I have made a small copper Merkaba to act as a reminder of how powerful the Merkaba in the form of a Necklace. Copper has electromagnetic properties and creates the a field of energy in the Merkaba. The Necklace Merkaba is exactly 26,2 mm square and is 1/20 th a replica of the Egyptian cubit. Price of \$89,00 includes shipping you can have the Copper Merkaba pre-programed with your intention.
